

PLAN SET · REVISION R6

Stand 15288

ADIPEC 2026 · Sinor Marine / Amphicos

Equipment and branding additions to the approved Amphicos booth, shown in 2D and 3D. Every addition is numbered A1–A7 and colour-coded; A5 (SMT back-wall logo) is removed in R6 and its number retired. The booth structure and its dimensions are unchanged.

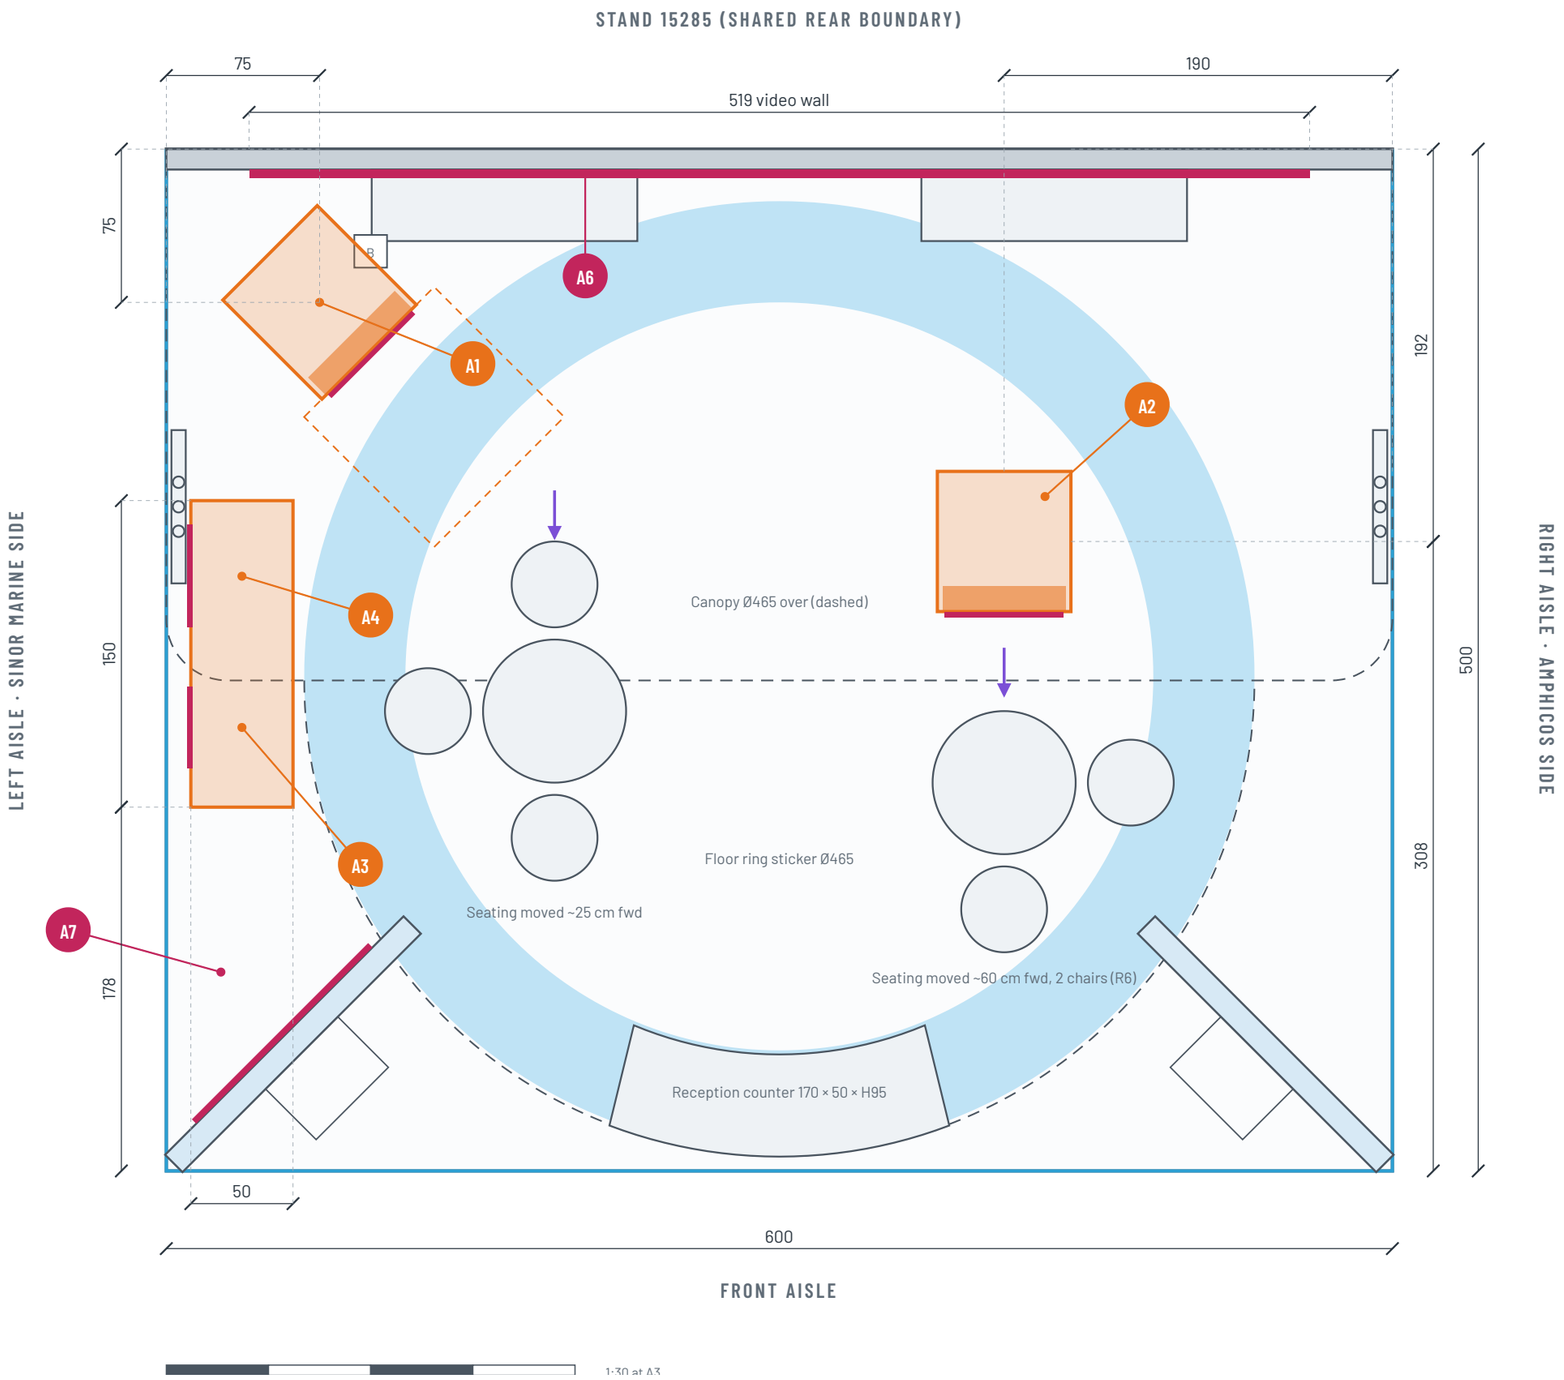

STAND	6.0 × 5.0 m · 30 m² · peninsula, 3 sides open
HEIGHT	4.00 m overall, 10 cm raised platform
VENUE	ADNEC Abu Dhabi · 2–5 Nov 2026
ADDITIONS	4 equipment items, 2 branding / AV changes

- New equipment
- New branding / AV
- Existing approved booth
- Overhead (header, canopy)
- Moved
- Removed in R6 (A5)

2D plan

Top view at platform level, cm. Front aisle at the bottom.

- New equipment
- New branding / AV
- Existing approved booth
- Overhead (header, canopy)
- Moved
- Removed in R6 (A5)

- **A1** MT DP console + MT logo fascia
- **A2** NAVIS DP console + NAVIS logo fascia
- **A3** Fugro Seastar 9410-AUT DGPS + monitoring display
- **A4** Sonardyne SPRINT-Nav DP in lockable cradle
- **A5** SMT logo (Sinor Marine Technologies) · removed in R6
- **A6** 8-screen video wall
- **A7** Partner Brands Showcase

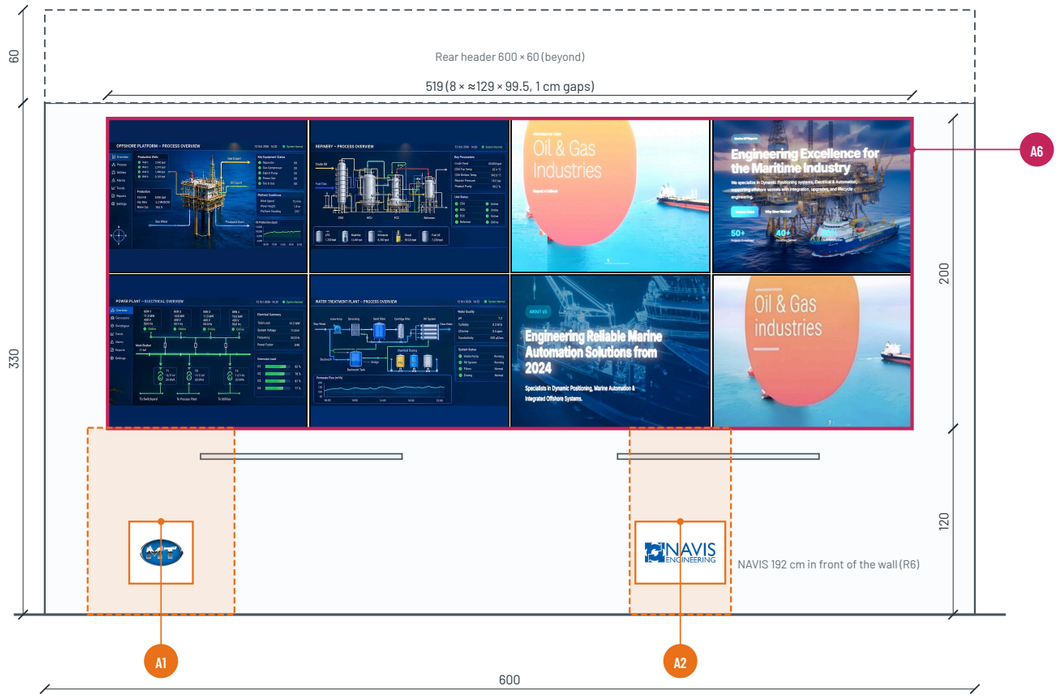

REMOVED OR CHANGED

- Two potted plants and two small rear side shelves removed (console corners)
- Seating groups moved ~25 cm forward, 3 chairs each, centre aisle clear (right group changed in R6)
- SMT logo removed from the counter front (R2)
- Fugro / Sonardyne logos removed from the header corners (R3)
- MT / NAVIS hanging logos replaced by lit fascias on the console fronts, so the video wall is unobstructed (R5)
- **R6:** SMT logo below the video wall removed (A5 retired); SMT only in the A7 showcase
- **R6:** NAVIS console moved from the rear-right corner to right of centre, square to the front aisle; right group's rear chair removed
- **R6:** right seating group a further 35 cm forward, 2 chairs (outer side, front)
- **R6:** right-edge Sonardyne table removed; Sonardyne joins Fugro on the left table, now 1500 long (was 1000). Right rear corner and right edge left empty

POWER

Box B on plan = DB B. All four equipment items fed from DB B (60 A, 3-phase) under the platform. Point A (15 A) is build-up only and stays where it is. MT and NAVIS consoles: 230 V, 10 A each (≈ 4.6 kW together), each on its own 16 A socket; the NAVIS cable runs under the platform to its new position.

Schedule of additions

REF	ITEM	SIZE (MM UNLESS NOTED)	POSITION	SOURCE / NOTE
A1	**MT DP console + MT logo fascia** New equipment	W 653.5 × D 685.9 × H 1205 mm (desk 767–797). Lit logo fascia 580 × 400 on the front cabinet, 200–600 above platform*	Rear-left corner, centre 75 cm from left and rear, turned 45° to the booth centre	Requirements document
A2	**NAVIS DP console + NAVIS logo fascia** New equipment	Same enclosure as A1. Lit logo fascia 580 × 400 on the front cabinet*. 230 V, 10 A, own 16 A socket from DB B, cable under the platform	R6: right of centre, centre 410 cm from the left edge and 192 cm from the rear wall (308 from front), square to the front aisle, screen facing visitors. Takes the place of the right seating group's rear chair (was rear-right corner)	Requirements document; position from Rahul's marked-up plan (R6)
A3	**Fugro Seastar 9410-AUT DGPS + monitoring display** New equipment	Shared display table with A4, 1500 × 500 × 950 (R6, was 1000). Receiver ≈ 300 × 280 × 100*, display ≈ 320 × 220*. Fugro logo 400 wide on the table front, centre 0.52 m above platform	Left edge, front half of the shared table. Table centre 37 cm from the left edge, 178–328 cm from front, long side to the left aisle	Units assumed, awaiting datasheet
A4	**Sonardyne SPRINT-Nav DP in lockable cradle** New equipment	On the shared 1500 × 500 × 950 table with A3, in its lockable acrylic cradle. Unit ≈ Ø240 × 375*. Sonardyne logo 500 wide (R6, was 600) on the table front, centre 0.52 m above platform	R6: left edge, rear half of the shared table (moved from the right edge; right table removed)	Unit assumed, awaiting datasheet
A5	**SMT logo (Sinor Marine Technologies)** Removed in R6	—	Back-wall logo below the video wall removed. SMT now appears only in the A7 Partner Brands Showcase. Ref A5 retired, other refs unchanged	Rahul's marked-up plan, 15 Oct 2026
A6	**8-screen video wall** New AV (modified)	8 modules ≈ 1290 × 995, 12 mm bezel, 10 mm gaps. Overall 5190 × 2000, 1.20–3.20 m	Back wall, replaces the two 2500 × 2000 screens in the same footprint	Left 4 Sinor platform content (stand-in), right 4 marketing
A7	**Partner Brands Showcase** New branding	2 × 2 logo grid ≈ 1220 × 700 on the existing panel, hairline dividers	Sinor Marine corner frame, aisle face, below the TV	SMT, SMT UK, Guidance Marine, Xplisi

OPEN ITEMS

- Sinor VR / 3D simulation screenshots for the four left video-wall screens (stand-in content shown)
- Fugro Seastar 9410-AUT and display datasheets (sizes, power)
- Sonardyne SPRINT-Nav datasheet (size, weight for the cradle)
- Length of the NAVIS cable run from DB B under the platform (R6 position)
- Higher-resolution SMT UK logo

CONFLICTS TO CONFIRM

- DB B sits 0.5 m off the rear wall beside the MT console. Keep it as a floor box with an access hatch, or move it to the rear boundary.
- Point A is build-up power only, so all items are fed from DB B under the platform, including NAVIS at its R6 position.
- R6: NAVIS front to the right seating table edge is ≈ 49 cm (console front 274 cm, table edge 225 cm from front), less than the 90 cm zone in front of MT. Confirm the operator space.
- R6: from the left aisle the lightbox column (≈ 137–212 cm from the rear) stands in front of the rear end of the shared table, partly screening the Sonardyne unit; its logo below is clear. Confirm on site.
- MT stays in the rear-left corner; the NAVIS position is from Rahul's marked-up plan (R6).

BASIS

- Booth from Amphicos Booth.pdf (1:10) and the four renders; seating and lightbox positions scaled from renders.
- Equipment from Sinor_Marine_ADIPEC_Booth_Design_Requirements.docx.
- Power from Stand_15288_Electrical_Grid_Plan.pdf.
- Logo artwork as supplied by Rahul, 15 Oct 2026.
